

UNIVERSITY OF ICELAND

A DYNAMIC COMMUNITY IN REYKJAVÍK

The University of Iceland is the leading university in Iceland and plays an active role in society and in the international scientific community.

Great emphasis is placed on strengthening research and educating young people, preparing them for active participation in society as well as making their mark on the global community. Currently some 13,000 students are enrolled at the University, including almost 1,400 international students.

The University of Iceland comprises five schools and 25 faculties offering over four hundred different programmes of study. It is the only university in Iceland

offering undergraduate and graduate programmes in all major academic disciplines, including doctoral degrees in most fields of study.

The University employs a large number of highly qualified academics who are a part of a strong global network within the scientific community.

The University's success in recent years has earned it a place amongst the best universities according to recognised international rankings.

Dynamic and extensive collaboration with key research institutions and industry is an important factor in the University's operations. Furthermore, working with leading universities all over the world provides the foundation for an international network of knowledge.

INTERNATIONAL OFFICE

The International Office manages international affairs at the University of Iceland. The office is responsible for international student exchange agreements, cooperation with academic partners and participation in international networks.

The office provides various services for incoming international students and visiting staff.
