Final report to NORDPLUS

3. For publication - For publication

3.1.1. Granted activities
Type of activities: Mobility, Network support

3.1.2. Outcomes and results for publication
Summary of project outcomes and results (max 350 words)
Products and materials
Websites and links

Answer from Kristina: “A user manual for reporting doesn’t exist but we consider a product a publication, book etc. i.e. a more concrete product than slides. Of course if these slides would be made for example as a “pdf-pamhlet/brochure” and published on a website it could be considered as a “product”.”
4. Projects

4.4. Network support

4.4.1. Report on network support

<table>

5.1. Reporting mobility

Implementation of mobility

Text
Please register the actual mobility on the next pages, 5.2. Student mobility, 5.3. Teacher mobility and/or 5.4. Express mobility

Three students from Finland to Norway – One student from Iceland to Norway: Funding was 4000 Euro – Room for teacher in September?

5.2. Student mobility

5.2.1. Actual student mobility

5.2.2. Comments to the student mobility

5.3. Teacher mobility

5.3.1. Actual Teacher mobility

5.3.2. Comments to the Teacher mobility
6.2. Comments to the expenditure

Comments to the expenditure

- All institutions/organisations receiving financial support from Nordplus must report back to Nordplus within 30 days of the end of the contract period.
- The reporting is done in Espresso, the online Nordplus application and reporting system, which is accessible from www.nordplusonline.org.
- The report must answer the following questions:
  - To which degree did the project meet its overall objectives
  - To which degree did the project produce the planned products (e.g. reports, publications, training material, courses)
  - To which degree did the project meet its planned schedule
  - To which degree did the project meet its planned budget
  - To which degree did the cooperation between the project partners meet its planned objectives
  - To which extent has the project had a positive impact on the participating partner institutions/organisations.
  - To which extent have the results of the project benefited target groups outside the institutions?
- The financial report must be authorised by the finance unit of the institution/organisation.
- Receipts should not be included in the report. Any unused funds must be returned to the programme after the contract period has ended. Rannis will send an invoice for the returnable amount.
- Coordinators of Nordplus activities should be aware that national Nordplus offices may carry out inspections, including financial audits. Reasonable notice will be given of any inspections.
The network can apply for administrative network support in order to establish the network three times but annual applications must be submitted. The network is defined as new for the three subsequent years in Nordplus.

Grants may be awarded for:
Networking activities,
Intensive courses,
Joint study programmes,
Development projects
Mobility of students and academic staff.
Nordplus Higher Education supports the following activities:

**Mobility**
- Student mobility
- Teacher mobility

**Project activities** This form of collaboration is time limited and focuses on a specific task – a project – with a specific outcome.
- Intensive courses
- Joint study programmes
- Development projects for Higher Education, including joint curriculum development and joint modules. For cross-sector projects, networks are recommended to apply from Nordplus Horizontal.

**Network activities for establishing and developing of networks**
The most common way to organise the collaboration in the programme is by networking. A network is usually thematic or subject specific and aims at long term collaboration on a wide range of different activities.

---

**Nordplus horizontal**

MAX 3y

The Nordplus Horizontal Programme is a cross-sectoral programme involving activities such as workshops, conferences, studies and innovative courses.

---

**ABOUT THE PROGRAMME**

Nordplus Horizontal is a cross-sectoral programme supporting innovative projects across traditional categories and sectors, as well as projects that address new, broad and complex challenges. Participation in the programme is open for all institutions and organisations willing to cooperate to develop education within a lifelong learning perspective.
Activities in the programme

Nordplus Horizontal can support the following activities:

- Workshops
- Seminars for exchanging experiences
- Conferences
- Studies and analyses
- Statistics projects
- Projects aiming to exploit the results of educational research
- The production of materials for innovative language training, teaching and translation, or similar materials in other areas of expertise
- The establishment of new course modules using new learning and teaching platforms
- The publication, distribution and exchange of results and experiences in education

Nordplus Higher Education and Nordic Council of Ministers’ Nordic Master are programmes that complement each other and support the development and establishment of joint study programmes.

The Nordic Master Programme

The Nordic Master Programme consists of degrees run jointly by up to three Nordic countries. The study programmes are all in English. It is a service that the countries would not be able to provide on their own.
Diasability adjusted life years - Iceland

The graph shows the top 15 risk factors for Iceland. The colored portion of each bar represents the specific diseases attributable to that risk factor while bar size represents the percentage of DALY's linked to specific risk factors.
